FEEL YOUNG!

It's Dr. Edwards' Olive Tablets the For You!

Reware of the habit of constipation. It develops from just a few constipated days, unless you take yourself in hand. Coax the jaded bowel muscles back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards' Olive Tablets apen the bowels; their action is gentle, yet positive. There is never any pain or griping when Dr. Edwards' Olive Tablets are used. Just the kind of treatment old persons should have.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two occasionally and have no trouble with your liver, bowels or stomach.

trouble with your liver, bowels or stomach. 10c and 25c per box. All druggists.

Much Work Done Last Year on Streets, Sewers and at Berlin Pond.

City reports are beginning to be handed over to the printer and show good management for the year past. More sewers have been put in than for a long time, in all a total of 8,500 feet, at a cost of \$9,721,36. Eighty-three cement catch basins have also been built. By the street department, 7,613 square yards of tar walk have been resurfaced, 631 square yards of new tar walk have been laid, and 739 yards of new cement concrete walk, besides 9,511 linear feet of plank walk. On River street, 2,600 linear feet of new tar bound stone road lington over the week-end. has been built, 1,525 linear feet on Elm street and 900 on East State street. A their daughter, Mrs. Arthur Stevens, total of 15,668 linear feet of gravel road at Middletown, Conn., this week. has been built. At Berlin pond, 1,100 square yards of cement work was put in the bottom of the reservoir and at the dam a four foot channel was cut into the rock and filled with cement, Saturday. the dam refaced and raised eight inches at a cost of \$3,932,35.

The funeral of Mrs. George Brainard was held from her late home Monday, day, Jan. 24, remains about the same. Rev. Homer A. Flint, rector of Christ Charles E. Kingsbury, Charles H. Bald-day, win, Louis H. Baine and Fred E. Glea-The body was placed in the vault at Green Mount cemetery.

AN ARCTIC DRAMA.

Playing to the Coldest House Known

In Theatrical History. Many and many a play has had a chilly reception. But imagine what it ord of playing to "the coldest house" known in dramatic history.

Dr. Kane, the famous arctic explorer, crew of one of the ships on the 14th of | mestic attack. February, 1851. The play was the farce called "The Mysteries and Mis-titular distinctions and to deprive so- 400,000 men in the field, and three eries of New York."

The outside temperature was 36 degrees below zero. In the "theater" it who chose to consider themselves so- coin to ask the appointment of a cerwas 25 degrees below behind the scenes | cially elect. and 20 degrees below where the audience was seated. One of the sallors had to enact the part of a damsel with bare arms, and when a cold flatiron, one of the properties, touched his skin the sensation was that of a hot iron. On Washington's birthday the crew

had another performance. Outside the ship's thermometer was 46 degrees below zero. Inside. by the aid of lamps, it was only 30 degrees below zero. "The condensation." said Dr. Kane, 'was so excessive that we could barely see the performers. They walked in a cloud of vapor. Volumes of smoke accompanied all vehemence of deliv-Their hands steamed. When an actor took off his coat it smoked like a

dish of potatoes,"-Indianapolis News.

Bolivia's Electrical Storms. formation of Bolivia, electric and other phenomena are of constant occurrence, the principal zone where such disturbances take place being the Altiplanicie, or grand plateau. As the at "Damaged Goods" at the Opera House, mosphers is heavily charged with electricity both in summer and winter, dry or electric storms are of frequent aged Goods" as a purpose drama, has occurrence both on the plateau and in presenting Eugene Bricux's remarkable sets in electrical accumulation becomes play before the serious minded audience, considerable on the plateau region, its as a letter written to the actor by Dr. most violent manifestations taking place toward the eastern section of the tablelands. An electrical storm in these regions is always a most imposing spectacle, as the tremendous force of the wind, almost equal to a burricane, and the heavy electrical accumulation in the clouds produce terrible atmospheric explosions and violent detonations, while the surface of the ground sparkles and crackles.

Scattered. Pat was employed on an engineering job a few miles out of the city and was carried to his work by an express train, which accommodatingly slowed up near the scene of his labors. One morning, however, the train rushed through the cut without reducing speed, and the superintendent of the job looked in vain for Pat. At last be saw a much battered frishman limping back down the ties and called to him: "Hello, Pat! Where did you get off?"

Pat turned stiffly and, waving his

hand toward the steep embankment. sighed: "Oh, all along here!"- Lafe,

Keeping Mulberry Leaves. Mulberry leaved, the chief diet of siftworms, can be preserved for a long time in cold storage if placed in well ventilated boxes of not more than three cubic feet especity at a temperature of between 33.8 and 36.6 degrees F. The allkworms eat them just as if they were fresh -- New York World.
